Monday, April 21, 2025, 6:30-8:30pm

Join ILNH and Congressman Ro Khanna for a Town Hall to take back NJ-07 for the PEOPLE!

Congressman Ro Khanna (CA-17) was born and raised just across the river in Bucks County. Since the 2024 election, he has been one of the most preeminent voices in the Democratic Party, from hosting town halls across the country and frequently appearing on CNN, MSNBC, and other networks, to leading the charge in Congress against the illegal actions of the Trump Administration. Unlike our own Representative Tom Kean Jr., Congressman Khanna is not afraid to speak with the people of NJ-07, so come meet him and ask about the issues most important to you, like Social Security, Medicaid and Medicare, democracy, supporting vulnerable communities and the environment.

Save the USPS. Tell Congress: Co-sponsor and Pass the Bipartisan Resolution to Stop Trump's Privatization Plan

The Postal Service is a constitutional promise, a critical part of our public infrastructure, our economy, and one of the most beloved and trusted public institutions in American life. It delivers to over 168 million addresses every single day, and employs more than 630,000 people in a postal workforce where nearly 30% are Black, and over 40% are women.

Tell Senators to oppose the SAVE Act which disenfranchises voters

Script: I understand that the House just passed the SAVE Act. I am deeply opposed to this bill. It will disenfranchise tens of millions of American citizens with no access to a birth certificate or passport, and 69 million married women who took their husband's last names. All to address a problem that doesn't exist! I demand that the Senator vote no on this bill.

Defend Scientific Progress and Protect the NIH

The impact of NIH research on both health research and our national economy cannot be overstated, but the administration has deliberately targeted the agency's work and fired thousands of NIH employees, including senior leadership, and blocked payment of millions in federal grants in open defiance of court orders. Attacks on the NIH are already disrupting crucial research on diseases like cancer and Alzheimer's while driving young scientists to flee the country. These devastating threats to scientific progress will set the United States back decades and further worsen the economic devastation wrought by this incompetent administration.

Documenting How Social Security Staff Cuts Affect NJ residents

As the Trump administration cuts the number of Social Security Administration (SSA) staff, a group of concerned citizens is trying to assemble information on the difficulties some NJ residents experience in speaking to the remaining SSA workers (by phone or in person) about their Social Security or Medicare benefits. The group plans to disseminate this information to pressure Republicans in congress to reverse the staffing cuts. This info can also help mobilize support for Democrats and help take back control of the House. If you know anyone who has experienced these difficulties communicating with SSA about their benefits please email [info@indivisiblelnh.com](mailto:info@indivisiblelnh.com). Volunteers are welcome to help with this project! ILNH will forward all responses to the project organizer.
